COSMETIC TATTOOING

SPECIALIST COSMETIC TATTOOING PREPARATION & AFTERCARE

EYELINER

Eyes Preparation

- Do not get the lashes tinted within 5 days of treatment.
- Do get the lashes tinted 1 week prior. You will be advised not to wear mascara for the week following.
- No lash extensions at the time of your appointment: Lash extensions may be applied 4 weeks after healed.
- Do not use any lash-enhancing serums for at least 30 days before treatment.
- If you wear contact lenses ensure they are removed and bring your glasses.
- Avoid eye makeup at the time of your appointment.
- Please call for further advice if you have experienced recent infection or irritation of the eyes.

Eyes Aftercare

- Your eyelids will feel heavy and slightly puffy afterwards.
- Swelling may be experienced the morning after. This normally subsides within 3-5 days.
- Using a clean cotton tip, apply a very thin layer of aftercare to the area.
- If the aftercare is causing your eyes to water STOP using it.
- Do not apply mascara to lashes for 7 days.
- Do not apply lash extensions for up to 4 weeks after final treatment.
- If you experience any unexpected discomfort or irritation of the eyes notify your cosmetic artist and consult a pharmacist immediately for further advice.

BROWS

Brow Preparation

- Have your brows waxed/tidied a week before treatment.
- Do not wax or tint the brows within 3 days of treatment. No tinting until 4 weeks after.
- Gently exfoliate the area for up to 3 days prior, ensure the skin is well nourished.
- Do not use any brow-enhancing serums for at least 30 days before treatment.
- Come in with an open mind about the different techniques: after a thorough consultation your Nadine will advise the most suitable option.
- You will be advised not to wet your brows for 5 days following treatment, It is recommend to wash your hair the night before.

Brow Aftercare

- Each morning clean the brow area with a damp cotton pad.
- Dab the area dry with a clean tissue.
- Using a cotton tip, apply a very thin layer of aftercare to the area.
- Gently remove excess with a clean cotton tip.
- Repeat this procedure morning and night for 7 days.
- Once healed, minor patchiness of colour may be present in some areas. This is normal and will be adjusted accordingly at the touch-up in 4-8 weeks. I recommend wearing brow powder or pencil to cover these areas until then.

HEALING TIME

DAY 1

OMG! I'M **IN LOVE**
WITH MY BROWS

DAY 2-4

I DON'T LIKE THEM
THEY'RE **TOO DARK**

DAY 5-7

THEY'RE **SCABBING**
AND FALLING OFF

DAY 8-10

UMMMMM.. MY
BROWS ARE **GONE?!**

DAY 14-28

WOW THE PIGMENT
IS **COMING BACK**

DAY 42

WOW I **LOVE THEM**
IT'S TOUCH-UP TIME!
